**Subject:** RE: SCE&G Natural gas increase

Dear Mr. Mixon

This is to acknowledge receipt of your email to the Public Service Commission. I am forwarding your email to our Clerk's Office for processing. Your email will become a part of Docket No. 2012-5-G and will be posted on our website under this docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling  
Administrative Assistant

**Subject:** SCE&G Natural gas increase

How could the Commission grant SCE&G an increase in natural gas rates? The market price for natural gas has been below \$4.00 this whole year and below \$3.00 for a good portion of it. In February they were charging about \$.94 per therm and now it is over \$1.16 per therm. The cost of gas has not gone up that much. Also how do customers know that the charge on their bill truly reflects the cost of the gas? They never seem to be turned down on a rate increase request! It seems that the Commission looks out for them more than they look out for the public!

Danny Mixon
